12. Note the attached Information Disclosure Statement(s).13. Other:	PTO/SB/08) Paper No(s)		

Continuation of 13. Other: Applicants have submitted amended claims on 10/26/2006, however none of the amended claims submitted overcome the rejections of record, the 35 USC 112, first paragraph, new matter (claims 5-6, 14, 20, and 25), and 35 USC 112, first paragraph, scope of enablement maintained (claims 1-14 and 16-28), 35 USC 112, first paragraph, written description (claims 1-14 and 16-28) in the Final Office Action mailed on 5/3/2006. Further new issues have arisen in the newly amended claims i.e. antecedent basis in claim 2 with respect to the term "non-human animal model" which is not recited in claim 1. Applicants argue in amendment that all of the claims are now allowable, however significant issues still remain. Claims 18, and 20-28 are still very broad claims and oustide of the scope of enablement rejection made previously. Applicants amended claims 1-2, 4, 7-12, and 16-17 have significantly less issues in contrast to claims 18, and 20-28, but still require that the rejections of record be maintained. The transgenic mouse model of an amyloid peptide-related neurological disorder is very specific, and not just any transgenic mouse model will suffice. However, the hAPPfad/Abeta model used in the working examples and recited in claim 2 will suffice, and should be incorporated into claim 1. Thus for reasons of record and above the rejections are maintained.
